Introducing the Next Generation of

Avro Baggage Tractors

BT70D DIESEL

EB50 EB60 ELECTRIC

BT60G GAS

Optimized Operator Experience

Ergonomic Design: Industry-leading legroom (up to 16" in gas/diesel models) and an adjustable tilt steering column for maximum comfort during long shifts.

Superior Visibility: Compact design and enhanced sightlines for safer navigation across busy tarmacs.

All-Weather Comfort: Fully enclosed modular cabs with optional high-capacity HVAC or winter kits to keep operators productive in any climate.

Advanced Safety & Intelligence

Digital Diagnostics: Integrated IFM display screen for real-time engine diagnostics and system status updates.

Safe Logic Systems: Advanced interlocks and safety logic prevent unauthorized shifting and ensure secure vehicle operation.

Visibility Package: Standard high-visibility strobe lights, LED work lights, and cab-controlled rear hitch spotlights.

Built for Performance

Customizable Traction: Modular bolt-on ballast allows you to customize traction performance based on specific operational needs.

Rugged Reliability: Heavy-duty frames capable of handling stress up to 2.5 times the rated pulling force.

Low Maintenance: Designed with high-quality, North American-sourced components for simplified servicing and maximum uptime.
